AN ACT

To encourage the breeding of horses; to regulate the public service of stallions; to require the registration of stallions; and to provide for the enforcement thereof.

Section 1. Be it enacted, &c., That every person, firm, or company standing or traveling any stallion for breeding purposes, in this State, shall cause the name, description, and pedigree of such stallion to be enrolled by the State Livestock Sanitary Board, and procure a certificate of such enrollment from said Board, which shall thereupon be presented to and recorded by the prothonotary of the county or counties in which said stallion is used for public service.

Section 2. In order to obtain the license certificate herein provided for, the owner of such stallion shall file a certificate of soundness, signed by a duly qualified veterinarian, or, in lieu thereof, he may make oath before a notary public that, after diligent inquiry, such stallion is, to the best of his knowledge, free from hereditary, contagious, or transmissible unsoundness or disease, and shall forward this veterinarian's certificate, or his affidavit, together with the stud-book certificate of registry of the pedigree of said stallion, and any other documents that may be necessary to define and describe his breeding and ownership, to the State Livestock Sanitary Board.

Section 3. The officers of the State Livestock Sanitary Board, whose duties it shall be to examine and pass upon the merits of each pedigree submitted, shall use as their standard for action the stud-books and signatures of the duly authorized presidents and secretaries, respectively, of the various horse pedigree registry associations, societies, or companies recognized by the United States Department of Agriculture; and shall accept as pure bred, and entitled to a license certificate as such, each stallion for which a pedigree registry certificate is furnished, bearing the signature of the president and secretary of a stud-book recognized and approved by the United States Department of Agriculture.

Section 4. Stallions afflicted with hereditary, contagious, or transmissible unsoundness or disease may be refused license by the State Livestock Sanitary Board; and when license is so refused, the said stallion shall not be used for public service for profit or gain in this State: Provided, however, That a license may be refused, under this section, only when it is certified to the Board by the State Veterinarian that the stallion in question is afflicted with an hereditary, contagious, or transmissible unsoundness or disease of such a nature, or that the abnormal condition is accompanied by such a defect of

conformation, as to render it probable that the progeny of the said stallion will be especially liable to said unsoundness or disease. Blemishes and deformities due to accidents shall not be regarded as unsoundness, within the meaning of this act.

Section 5. The owner of each stallion standing for public service in this State shall post, and keep affixed during the entire breeding season, copies of the license certificate of such stallion, issued under the provisions of the next succeeding section, in a conspicuous place both within and upon the outside of the main door leading into any stable or building where the said stallion stands for public service.
